

HOPE NETWORK ALPHARETTA, GEORGIA

PROJECT DETAILS

Interior build-out of 3,000 Sf of office/meeting space located in downtown Alpharetta Georgia. The mission of Hope Network is to provide a refuge and welcoming place to assist people to endure crises they face in life. This mission was at the forefront of all our staff during the process of preconstruction and construction. Attention was given to ensuring that the interiors reflected this mission. The construction had a higher purpose and we are very proud and humbled to play a part.
