

Dear Ken

I am very glad that I made the decision to use Morton Construction for my new veterinary clinic. I always felt that my investment was being maximized.

Maximization occurred early with competitive economical pricing and continued with high quality construction. Your experienced dedicated team truly understands the veterinary business. This was displayed in their knowledge that the facility helps provide care for our patients' number one. Plus, this knowledge was further displayed by understanding what I and my staff need to practice our trade. The team's construction process was always motivated by these two important facts.

I would highly recommend you to others.

Sincerely,

  
Stephen R. Griffin, DVM
