

# ACE PICKLEBALL CLUB ROSWELL, GA

This former CompUSA was converted into the 39,000 SF Ace Pickleball Sports Complex. The renovated facility contains 14 courts with a new state of the art epoxy playing surface that also glows in the dark for creative competitions. The new mezzanine lounge and viewing area provided the players with a rest stop and a viewing stage to cheer on their fellow competitors. The facility also includes meeting and conference areas and locker rooms. The busy existing retail center remained open and functional during construction.
